

ANDRES HENAO

Cyber security specialist | cloud security engineer | mobile and web applications developer | Automation & Cloud Solutions

Sydney, Australia | andres.henaocastro@live.vu.edu.au | +61 404 682 541 | [LinkedIn](#) | [Seek](#)

Cyber security specialist with a strong foundation in secure software architecture, cloud automation, and intelligent systems integration. Experienced in designing and deploying end-to-end solutions using Python, Flask, Django, Docker, and SQL, with a focus on security, scalability, and resilience.

Skilled in implementing AI agents, LLM orchestration, and automation pipelines that enhance performance and streamline operations. As Founder of Awesome Services, I led the adoption of AI and workflow automation to improve operational accuracy by 90 % and client retention by 96 %.

Backed by IBM certifications in AI, backend, and full-stack development, I bring a practical, multidisciplinary perspective combining cybersecurity principles with automation and real-world execution to build secure, intelligent, and efficient systems.

Professional Skills

Cybersecurity & Network Defense

Cyber Threat Analysis, Vulnerability Management, Incident Response, SIEM Tools, Risk Management, Network Security, Cloudflare Security, Firewall Configuration, Security Hardening.

Software & Full-Stack Development

Python, Flask, Django, API Development and Integration, Full-Stack Development (Front-End and Back-End Development), Docker, GitHub, SQL.

Artificial Intelligence & Automation

LLM Integration, AI Agent Implementation, Workflow Automation & Orchestration, Process Optimization, MCP Servers for AI.

Cloud & Infrastructure

Cloud Computing (AWS | IBM Cloud), Linux System Administration, Containerization, Cloud Security Principles.

Data & Analytics

Data Mining, Data Analysis, Data Visualization, Data-Driven Decision-Making.

Problem Solving & Collaboration

Debugging, Troubleshooting, Cross-Functional Communication, Continuous Improvement.

Professional Experience

Managing Director

Awesome Services Sydney Australia

Oct 2013–Present

- Led full business operations including client acquisition, workforce management, quality control, and financial oversight across multi-site operations.
- Designed and implemented automation workflows with n8n and Python, improving operational accuracy by **90 %** and reducing administrative workload.
- Developed and deployed a customer service QA workflow, boosting client retention by **96%** and improving overall satisfaction ratings.
- Built and trained cross-functional cleaning teams, enforcing service standards and safety compliance across all job sites.
- Handled all financial operations including budgeting, expense tracking, invoicing, payroll, and vendor payments.
- Resolved customer concerns with a proactive, solutions-focused approach
- Analyzed service trends, client feedback, and operational KPIs to continuously refine offerings and exceed customer expectations.

Logistics Specialist In-House Kemira Chemicals Brazil Ltda.

Coordinadora Logística Internacional Bogotá, Colombia

July 2008–Mar 2013

- Served as in-house logistics specialist supporting Kemira Netherlands operations in Colombia, overseeing international transport and warehousing.
- Led the strategic design and implementation of the Logistics Support Warehouse (DAL) in Colombia, creating a regional logistics hub that improved service coverage and reduced international delivery times to Central American markets.
- *Analyzed shipping and warehouse data to identify inefficiencies, leading to process improvements that increased on-time delivery rates and optimized stock distribution.*
- *Developed operational reports and interactive dashboards to enhance data visibility, cost forecasting accuracy, and carrier performance tracking.*
- *Managed coordination of national and international sea, air, and overland freight, ensuring compliance with customs and safety regulations.*
- *Negotiated rates and contracts with global carriers, reducing transportation costs and improving delivery timelines.*
- *Maintained and updated logistics and inventory databases, minimizing data errors and improving cross-departmental reporting reliability.*
- *Led the implementation and training rollout of a new logistics management system, improving tracking precision and warehouse efficiency across multiple sites.*

Account Manager

Coordinadora Logística Internacional Bogotá, Colombia

Feb 2006–June 2008

- Managed national and international client accounts across multiple industries, delivering tailored logistics and supply chain solutions aligned with business needs.
- Coordinated sea, air, and overland transport operations, ensuring on-time and cost-effective delivery of goods while maintaining full compliance with international trade regulations.
- Oversaw daily operations across multiple warehouses, improving inventory accuracy, inbound/outbound scheduling, and operational efficiency.
- Negotiated contracts and freight rates with global carriers to reduce delivery costs and optimize transport timelines.
- Analyzed logistics performance data to identify bottlenecks, improve KPIs, and streamline end-to-end workflows.
- Collaborated with cross-functional teams to enhance client experience, operational visibility, and service quality.

- Supported business development initiatives, contributing to the acquisition of new international clients and expansion of the company's service portfolio.

Operations Specialist

Kuehne & Nagel Bogotá, Colombia

Feb 2005–Jan 2006

- Oversaw international logistics operations and process optimization initiatives for major corporate clients, improving efficiency and accuracy in shipment coordination.
- Supported the implementation and rollout of the KN internal logistics tracking system, ensuring seamless adoption through staff training and process documentation.
- Coordinated international freight operations across air, sea, and land transport, managing customs documentation, regulatory compliance, and real-time tracking.
- Monitored performance metrics and key operational KPIs to enhance shipment visibility, reduce transit delays, and improve on-time delivery rates.
- Collaborated with cross-border teams to troubleshoot logistics bottlenecks and maintain smooth, end-to-end delivery workflows.
- Served as Chair of the Occupational Health and Safety Committee, leading compliance initiatives and promoting workplace safety standards across the branch.

Customer Service Specialist

Kuehne & Nagel Bogotá, Colombia

Jan 2003–Dec 2004

- Coordinated import and export operations for domestic and international clients, ensuring shipment accuracy, compliance, and timely delivery.
- Served as the primary client liaison, providing proactive communication, real-time updates, and resolution of shipment-related issues.
- Prepared and validated logistics and customs documentation, maintaining compliance with international shipping and trade regulations.
- Collaborated with carriers, customs agents, and warehouse teams to streamline operations and reduce delivery delays.
- Strengthened long-term client relationships through consistent service quality, problem resolution, and tailored logistics solutions.
- Contributed to internal process improvements that enhanced efficiency and supported customer satisfaction goals.

Education

Victoria University Sydney Australia

Jan 2003–Dec 2004

Bachelor of Cyber Security

Australian Pacific College Sydney Australia

Aug 2016 - May 2018

Licenses & Certifications

- IBM Full Stack Software Developer Specialization
- IBM Front-End Development Specialization
- IBM Back-End Development Specialization
- IBM Full-Stack JavaScript Developer Specialization
- IBM Developing AI Applications with Python and Flask
- IBM Python for Data Science, AI & Development
- TAFE Introduction to Artificial Intelligence
- TAFE Generative AI and its Business Applications
- TAFE Responsible to Artificial Intelligence

Professional Achievements

- Led the national rollout of the KN Logistics System across Colombian branches, achieving a **40%** improvement in shipping data accuracy and enhanced tracking visibility.
- Spearheaded the implementation of the Logistics Support Warehouse (DAL) for Kemira Netherlands, reducing international transit times by over **50%** and enabling new client acquisitions across Central America's sugar industry.
- Developed and executed a regional distribution strategy positioning Kemira Chemicals Colombia as a central logistics hub, significantly lowering shipping and storage costs through customs-compliant warehousing.
- Negotiated early-payment terms with key suppliers, improving cash flow and delivering a notable reduction in operational costs.
- Optimized warehouse operations, carrier selection, and route planning at Coordinadora Logística Internacional, producing measurable reductions in delivery times and transportation expenses.
- Championed the Paperless Project, digitizing logistics documentation to increase compliance, reduce processing time, and eliminate manual errors.
